

Become a Sensory Detective at Home

Target Participants

Parents, Caregivers, Professionals

Workshop Objectives :

This workshop is designed to assist parents and caregivers to support children with behavioural challenges and learning problems. The sensory processing approach assists parents in “looking beyond” the behaviour and into the nervous system. It helps with understanding how the child’s behaviour is a manner of coping.

Strategies in adapting the environment, altering interaction, and providing appropriate supports for children who have difficulty with processing sensory information will be provided.

Many children with different diagnoses experience challenges in the manner in which they process sensory information. (For example, learning disabilities, developmental coordination disorder, ADD/ADHD, fetal alcohol syndrome, autism spectrum disorders, cerebral palsy and
